I'm still young, I don't want to die! I want to be a CEO, get rich, marry a pretty girl, and reach the peak of life

Luckily the bite wound isn't deep and it hasn't been long since he was bit. Also the main body is unharmed, so he should be safe.

He's called Sun Shi Er, one of my bros and he's really strong.

Wang Yu whose he?

Relax! The poison's already under my control! As long as I'm here you won't die!

Great! Really Great! Thank you Shao Xia.

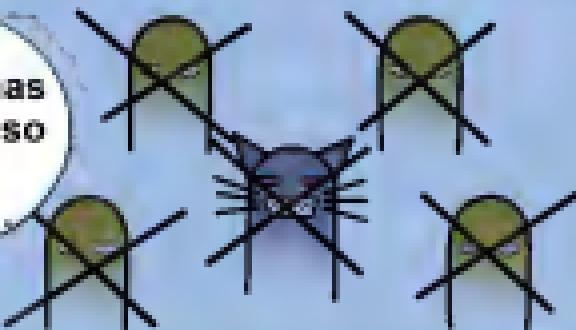

Who would've known, the cat demon lurks around here... Not to mention this person became infected

Normally, the infected will not stray away from the host.

They will instinctively ensure that the host is safe.

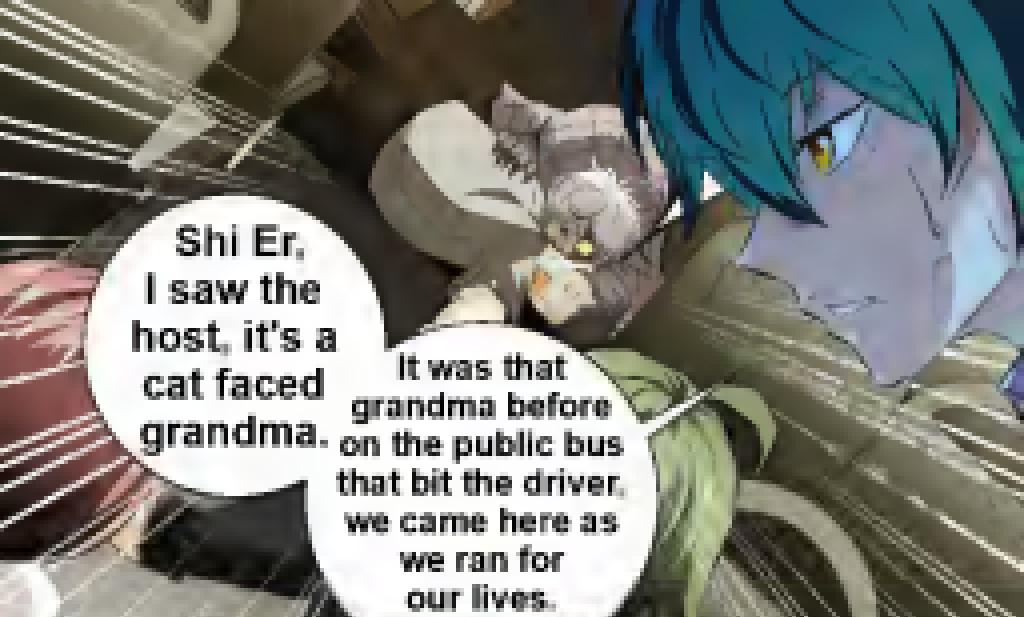

When the host has perished, so will the infected.

Thats about it!

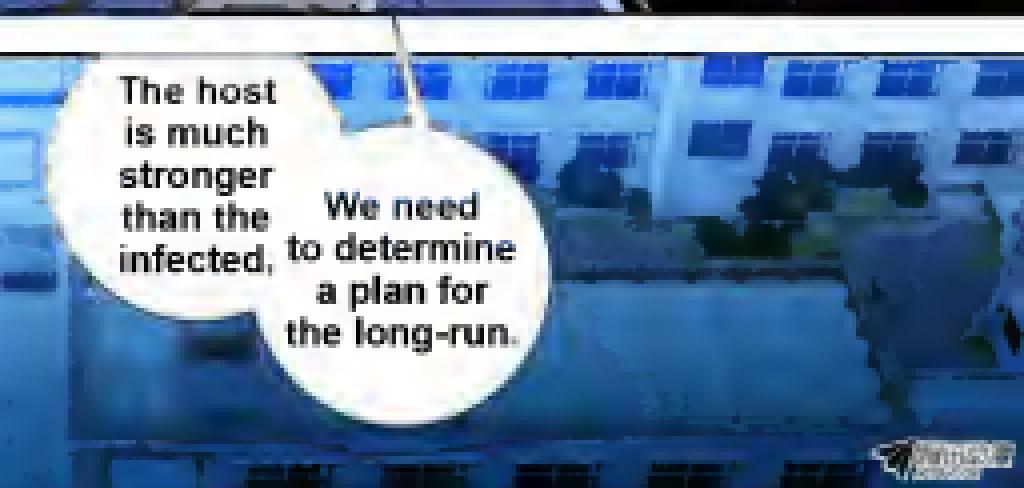

The f**k you drawing Who's gonna understand!

Shi Er,
I saw the
host, it's a
cat faced
grandma.

It was that
grandma before
on the public bus
that bit the driver,
we came here as
we ran for
our lives.

The host
is much
stronger
than the
infected,

We need
to determine
a plan for
the long-run.

Wait a minute,
Shi Er... you
said the infected
won't stray far
from the host

If the
driver
is already
here,
then....

Bro don't
scare me!
I'm already
scared
shittless
